MY, HOW TIME FLIES!

FROM LAURIE AND LINDA

Ever notice the older we get, the more we're like computers? We start out with lots of memory and drive, then become outdated and have to get our parts replaced. Here are some signs that old age MIGHT be creeping up:

Your knees buckle, but your belt won't.

You hear snap, crackle, pop before you get to the breakfast table.

You know your secrets are safe with your friends because they can't remember them either.

You sing along with the elevator music.

You suddenly can't remember a friend's name, and when you ask them, they reply "How soon do you need to know?"

You discover that the words scalawag, whippersnapper, and by-cracky are creeping into your vocabulary again.

Getting lucky means you finally found your car in the parking lot.

You start longing for your childhood days when tough decisions were simply made by going "eeny meeny miney mo". And all your mistakes were corrected by exclaiming "Do Over!" And all your abilities were discovered because of a "double dog dare".

You remember milk delivered in glass bottles; metal ice trays with levers; mimeograph paper; and 45 rpm records.

Oh well.....we can put up with the modern rat race, but we could all do with just a little more cheese!!! Linda and Laurie are so fortunate to have all of you as our friends and neighbors. So don't hesitate to call on us for any of your real estate needs.
