Real Estate Insider Q&A: "When To Sell?"

"When should we put it on the market? We're in no hurry to leave the area, but don't want to miss a window to sell our place for a good price."

Q. "I live in an area with extremely low home inventory and that is fairly desirable. We plan to put our house on the market too, but don't need to be in our new location until August. When should we put it on the market? We're in no hurry to leave the area, but don't want to miss a window to sell our place for a good price."

A. "It is possible to put your house on the market now or any time within the next few months and take advantage of this great Sellers' Market. Buyers come from all kinds of living situations. Your house could be perfect for someone who is not in a hurry to move, someone who is in a month to month rental, someone selling another house or condo, and lots of other situations."

"If you are thinking of selling your house in the next 3–7 months, what you do right now to prepare to sell could make a difference of thousands of dollars!"
