

From Laurie and Linda

To make half a kilo of honey, bees must collect nectar from over 2 million individual flowers.

The banana is the only fruit that cannot reproduce itself. It can only be propagated by man.

Strawberries are the only fruit whose seeds grow on the outside.

The military salute is a motion that evolved from medieval times when knights in armor raised their visors to reveal their identity.

Soldiers do not march in step when

going across small bridges because they could set up a vibration sufficient to knock the bridge down.

It takes glass a million years to decompose, which means it never wears out and can be recycled an infinite number of times.

Your tongue is the only muscle in your body that is attached at only one end.

The tooth is the only part of the body that cannot heal itself.

Nine out of every living thing lives in the ocean.

Google is actually the little-known common term for a number with one million zeros.

The Mona Lisa has no eyebrows because in the Renaissance era, it was the fashion to shave them off.

When a woman says "What?" it's not because she didn't hear you. She's giving you a chance to change what you said!

If you ever have a strong urge to slap someone— just do it and then say, "Mosquito!!"

We hope you enjoyed a little humor to brighten your day!
