

Trust the Stover Team. As RE/MAX professionals it is our aim to offer you the most efficient and competitive service in the marketplace. We know home ownership is one of the most important investments you'll make in your lifetime, so whether you're buying or selling a home, we're here to serve you.

Our Specialties:

- ▶ **CDPE- Helping both buyers and sellers navigate the world of foreclosures and shortsales.** Our team is trained and certified to help buyers locate properties that have been foreclosed by the bank or about to be. We can assist you with renovation loans, certified contractors, and legal services.
- ▶ **Finishing Touch - Helping you or a loved one transition to a new home without worry.** We can help ease the transition by assembling a team of licensed and insured professionals who will help make sorting, packing and moving a stress-free experience for you and your loved ones.
- ▶ **First Time Buyers.** The Stover Team loves first time buyers. Over the years we have helped many clients make their very first purchase. There are so many things to consider when buying your first home and it can be overwhelming. We love to walk alongside our buyers as they experience each step, explaining the process on the way.
- ▶ **Remax- Number #1 in the world for real estate sales.** That means the largest market share, the highest trained professionals, the best internet presence. Listing with REMAX means your property is seen by more buyers than it would be with any other broker. Buying with REMAX means you're working with the best in the business.
