

# Having Difficulties Getting your Money?

Many credit unions and big banks say they offer loans but by the time they add their overlays on top of the already established guidelines, it becomes impossible for you to obtain loan approval. Obtaining financing is already difficult in today's market...call me first. I have no tax return needed loans, equity based loans, FHA, VA, USDA and loans for self-employed borrowers just to name a few. You receive this flyer because we have worked together in the past, let's do it again.

*If you, a family member or a co-worker can use any of my services please feel free to pass on my information*
